# Experiences for CDM developments of wind power projects in China

## ***Quality Control procedure for CDM development of wind power projects***

- 1. Evaluation for additionality of the projects in the FSR period**
- 2. Cross check the additionality of the project**
- 3. Evaluation for additionality of the projects in the operational period**

## *Target of Quality Control procedure*

- 1. Determine whether the project is eligible to apply for CDM**
- 2. Guarantee the projects can meet the requirement of CDM**

### **Methodology**

龙源电力集团股份有限公司

CHINA LONGYUAN POWER GROUP CORPORATION LIMITED

## *Obstacles for CDM developments of wind power projects in China*

Tariff policy for renewable energy projects in China

**Vs**

Evaluation methods for estimated tariff in the FSR

*Is the tariff of wind power project reduced ???*

## Stakeholders' response

**PP & DOE:** Clarification submitted to EB.

**DNA:** Letter from NDRC (DNA China).

**NGO:** Study submitted by GWEC.

龙源电力集团股份有限公司

CHINA LONGYUAN POWER GROUP CORPORATION LIMITED

## EB'S decision

*10 wind power projects in China were rejected!*

龙源电力集团股份有限公司

CHINA LONGYUAN POWER GROUP CORPORATION LIMITED

## Copenhagen offers small comfort for CDM

### Further guidance relating to the clean development mechanism

- *Improve transparency, consistency and impartiality in its work;*
- *Enhance its communications with project participants and stakeholders;*

## Further guidance relating to the clean development mechanism

- *Take fully into account the laws, regulations, policies, standards and guidelines that apply in the host countries;*
- *Host country has the prerogative to decide on the energy policies;*
- *Establish procedures for considering appeals .*

## Longyuan CDM Project

### Project :

- 80 CDM projects developed or under development (post-PDD stages), almost all wind power
- Total capacity: 3,993MW
- ERs by 2012: 24 million
- 27 projects registered
- 10 projects issued
- Issued CERs: 1.25 million
- 3/4 with KPC

## Longyuan CDM Project

Project in the pipeline:

- More than 20 CDM projects will be developed each year in near future, to fulfill Longyuan's 2010 and 2020 target
- Total Capacity: about 1,000MW
- ERs per year: 2 million
